# SEAFOOD

Because eating habits change on a daily basis, Jordano's Seafood Department works hard to keep up with the latest trends. We deliver amazing fresh and frozen seafood, and are constantly developing new and innovative ways to help you promote healthy and creative menu selections. No matter what your concept is, we have a solution.

Sourcing the right products at the right prices and maintaining a consistent supply is the key to success in the seafood world. That's why we stock three to five fresh fish every day—from favorites like red snapper and salmon, to more exotic varieties like opah, ono and barramundi. Our fresh fish is locally processed daily and cut to our specifications.

It makes sense to economize and rely on one reliable purveyor for all your seafood and center of the plate needs. Ask your Jordano's account executive about our seafood program. Your satisfaction is guaranteed.

# FOOD SAFETY AND COMPLIANCE

Food safety is serious business, and Jordano's takes a proactive approach to verifying reputable vendors and manufacturers. Here are some of the ways we stay on the forefront of food safety.

**SERIOUS IN-HOUSE EXPERTISE** Karrie Reeves-Gilbraith, Jordano's food safety specialist, has more than 15 years experience in food safety inspection, consulting and auditing. She has a degree in Environmental Resource Management, is a Preventive Controls Qualified Individual (PCQI), and holds a number of additional certifications. She actively reviews criteria requirements of Jordano's suppliers to ensure compliance. She also works collaboratively with all other Jordano's employees to continue the food safety chain by monitoring sanitation and temperature control in Jordano's warehouse and delivery vehicles.

**TRAINING PROGRAMS FOR OUR STAFF AND YOURS** All Jordano's warehouse workers, drivers, and salespeople—everyone who handles food and the packaging that touches it—receive food safety training. They know how to spot something that is not safe, and stop it from going further down the line. Jordano's also offers customers access to online ANSI-accredited food safety training and allergen training programs for their employees.

## ESTABLISHED PROGRAMS AND PROCEDURES

Jordano's maintains a comprehensive traceability program. We know where all our products come from, and can always provide customers with pertinent information. Our food safety team can move immediately to stay on top of any issues that arise and notify customers who may have been affected.

## 1 + 1 + 1: The Secret To Great Sauce At A Lower Cost

It takes tomatoes of exceptional quality to stand up to water: a thick, deeply satisfying richness, flavorful enough to let you do more with less. A combination of products you can count on for more flavor. More extendability. More power to please.

One can of Bonta + one can of 6 in 1 + one can of water can significantly reduce your cost per serving, yet will still deliver the high-quality, great tasting sauce your reputation demands. Value – without sacrificing taste or quality.

All Bar-M bacon is made from preferred and carefully selected center cut pork bellies. Pride in preparation is also a part of their tradition. Old World recipes combined with their Double Hickory Smoking process gives their gluten and MSG-free ultra-lean bacon products the rich flavor and melt-in-your-mouth tenderness consumers demand.

Discriminating chefs rely on Daily's® Premium Meats for hickory smoked and deep applewood smoked bacon with unsurpassed quality, consistency and flavor.

For every box of foodservice bacon, Daily's® uses its legendary honey cure or premium sugar cure and slow smokes each belly with natural hardwood hickory or applewood and never uses artificial smoke. Then each belly slab is sliced-to-order setting the standard by which all others are compared.
