delinow[®]

DeliNow reusable containers are designed to hold everything from hot soup to rice and beans to nuts. They are virtually leak-proof and withstand high heat from microwaving, and they stack great while the clear design allows for easy product identification.

micronow[®]

MicroNow containers are offered in a variety of shapes with black bases and translucent lids. Their 2-piece, heavy-gauge construction makes these a great option for prepared foods or food to-go. They are reusable, microwavable, and dishwasher safe.

naturenow[®]

Eco-friendly, heavy-duty, and compostable, the NatureNow product line is made from bagasse sugarcane, using only sustainable raw materials. Microwave safe and cut resistant.

take-outnow[®]

Eco-friendly and patented, Take-OutNow, hinged to-go containers are made from polypropylene and a natural mineral powder that reduces the amount of plastic used in the finished product. Durable, with a full rim seal, these containers are microwave safe and able to withstand high heat.
