

Your resource for eco-friendly foodservice products.

Green Guide

NowPak containers are optimal for takeout, curbside pick-up, or delivery for all of your hot and cold foods. With so many options that are environmentally friendly, recyclable, compostable, and microwavable, NowPak has the perfect high-quality, low-cost packaging solution for your operation.

DeliNow reusable containers are designed to hold everything from hot soup to rice and beans to nuts. They are virtually leak-proof and withstand high heat from microwaving, and they stack great while the clear design allows for easy product identification.

MicroNow containers are offered in a variety of shapes with black bases and translucent lids. Their 2-piece, heavy-gauge construction makes these a great option for prepared foods or food to-go. They are reusable, microwavable, and dishwasher safe.

Eco-friendly, heavy-duty, and compostable, the NatureNow product line is made from bagasse sugarcane, using only sustainable raw materials. Microwave safe and cut resistant.

Eco-friendly and patented, Take-OutNow, hinged to-go containers are made from polypropylene and a natural mineral powder that reduces the amount of plastic used in the finished product. Durable, with a full rim seal, these containers are microwave safe and able to withstand high heat.

THE SIMPLE STRAW

REINVENTED

With the current tide towards paper straws, our agave biopolymer based straws keeps the familiar feel users prefer. Our straws are made from agro-waste, a totally renewable resource from tequila and mezcal distilleries. They are excellent in hot & cold beverages. Available in 15cm, 21cm and 26cm lengths and, wrapped and unwrapped available. Our diameters are from 3mm "stirrer size" to 8mm jumbo size. From cocktails to smoothies, we have got you covered!
